

Month	Topic Name	Teaching Hours
Feb-24	Introduction to Shalya Tantra:	1
	Historical background and progress made.	1
	Definition of Shalya, Shalya Tantra and its importance.	2
Mar-24	Description of Yantra, Shastra, Anushastra : Definition, number, types, uses, Dosha, Guna, Karma. Relevant modern instruments.	5
	Nirjantukarna/Sterilization: Methods, Types, and its role in surgical Practice	5
	Sangyahan/Anaesthesia: Definition and Types.	6
	a) Local anaesthesia – Drugs, Techniques, Indications, Contraindications, Complications and their Management	
	b) Regional and General anaesthesia – Drugs, Techniques, Indication, Contraindications, Complication and their management.	
	Trividha Karma – Purva Karma, Pradhana Karma and Paschat Karma	4
24-Apr	Ashtavidha Shastra Karma – Surgical Procedures.	2
	Yogya – Experimental Surgery.	1
	Marma: Nirukti, types, description and importance.	2
	Nirukti, Nidana, Samprapti, Prakara, Lakshana, Sadhyaasadyata, Upadrava and Chikitsa of the following disorders.	
	a) Vranashotha – Inflammation	2
	b) Vidhradi – Abscess	1
	c) Pidika	1
	d) Nadi Vrana – Sinus/Fistulae	2
	e) Vrana Granthi – Keloid/Hypertrophic Scar	5
	f) Marmagata – Shock	2
	g) Kotha – Gangrene and Principles of Amputation	2
May-24	h) Granthi – Cyst	2
	i) Arbuda – Tumour	1

	Bhagna – Skeletal injuries – Prakara including pathological fracture, SamanyaLakshana, Updrava and Chikitsa.	2
	Description of Fracture of following bones with Clinical features Diagnosis, Complications and Management-	1
	a)Scapula b)Clavicle	1
	c)humerus	1
	d)Radius	1
	e)ulna	1

Jun-24	f)femur	2
	g)Patella h)tibia	1
	i)pelvisbones	2
	Principles of Amputations	2
	Sandimoksha – Dislocation :Dislocation of followings joints with Clinical features.	
	Diagnosis,Complicationandmanagement of	
	a)Shoulder	1
	b) elbow	1
	c) hip	2
	Diseases of bone : Aetiopathogenesis, Classification, Clinical features, Diagnosis, Complications and Managements of	
	Congenital Anomalies	3
	Osteomyelitis	2
	Bone cyst & Tumours	2
	Bone Tuberculosis	2

Jul-24	Cranio–cerebral Injuries :Mechanism,Pathology,	4
	Classification, Investigations, Complications and primary managements	
	BrainTumour&theirmanagement	2
	Diseases of Spine :Mechanism, Pathology, Classification. Investigations,Complicationsandprimarymanagemen tof	
	a) Tuberculosis	1
	b) AnkylosingSpondylitis	1
	c) DiscProlapse	1
	Vrana – Nirukti and Prakara	

a) Nija Vrana – Nidana, Samprapti, Vrana Vasthu, Prakara, lakshana, Vrana Pariksha – Sthana, Vrana akruti, Srava, Gandha, Vbedana. Vrana Avastha Dustavrana, Shuddha Vrana, Vrana Sadhya – asadhyatha and Vrana Upadrava.	2
b) Vrana Chikitsa :- Pathya-apathya and Shashti Upakarma, Vranitagara and Rakshakarma.	4
c) Agantuja Vrana –	
1) Sadya Vrana – Traumatic wounds – Nidana. Prakara, Lakshana, Upadrava and Chikitsa.	1
2) Management of bites and stings	1
d) Dagdha Varna – Burns and scalds.	2
e) Ulcer – Types and their management.	1

Aug-24	f) Wound healing stages and their management.	1
	g) Pramehapidaka – Diabetic carbuncle and wounds.	1
	Kshara and kshara Karma:	
	a) Nirukti, Pradhanyata, Guna , Dosha, karma, Prakara, Yogya, Ayogya, Procedure, Upadrava and Chikitsa.	1
	Kshar sutra- Preperation, Indication, Contraindication, and method of application, complication and their management	1
	Agnikarma: Mahatva, Upakarana, Vidhi, Akruti bheda, Yogya, Ayogya and Upadrava Chikitsa.	1
	Raktamokshana: Mahatva, Prakara- Siravyadha, Pracchanna, Shringa, Alabu.	1
	Jaloukavacharana : Yogya, Ayogya, Procedure , Upadrava and Chikitsa.	1
	Bandha Vidhi- Prayojana, Dravya, Indications, Contraindication, Prakara, Upadrava, Pinchu, Plota, Kavalika and Vikeshika.	1
	Pranasta Shalya and Nirharana Upaya.	1
	Fluid, Electrolyte, Acid Base Balance and Nutrition:	
	a) Introduction of physiology of fluids and electrolytes.	2
	b) Dehydration and over hydration.	
	c) Specific electrolyte loss, Acidosis, Alkalosis, Symptomatology and Management.	

	Disease Of small intestine: Ateopathogenesis, classification, clinical features, Diagnosis, Complications and management of	
	a) Tuberculosis	2
	b) Obstruction	2
	c) Perforation	2

Sep-24	Disease Of Large intestine- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Tuberculosis	1
	b)Obstruction	1
	c) Perforation	1
	d) Appendicitis	2
	e) Crohn's disease	1
	f)Ulcerative Colitis	2
	g)Tumour	2

Oct-24	Udara roga: Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Jalodara- Ascites	1
	b) Cchidrodara- Perforation	1
	c) Peritonitis	1
	d) Baddhagudodara- Intestinal Obstruction	1
	Disease of rectum and anal canal- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Congenital disorder	1
	b) Arshas- Haemorrhoids	1
	c) Parikartika- fissure-in-ano	
	d) Bhagandara- Fistula-in ano	2
	e) Gudavidradhi- Anorectal abcess	2
	f) Gudabhramsa-Rectal prolapse	
	g) Sannirudhaguda- Anal stricture	1
	h) Incontinance, Rectal Polyp	
	i) Tumours	1

Nov-24	Abdominal injuries and their management	4
	Disease of liver- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	

	a) Yakrit vidradhi-Abcess	2
	b) Neoplasia	2
	c) Portal hypertension	2
	d) Yakritalyodar-Hepatomegaly	2
	Disease Of gallbladder- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Cholecystitis	1
	b) Cholelithiasis	1
	c) Obstructive jaundice	2
	d) Tumours	2

Dec-24	Disease of Pancreas- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Pancreatitis	2
	b) Cyst of Pancreas and Tumours	2
	Disease Of Spleen- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Pleehodara-Splenomegaly	2
	b) Splenic rupture	2
	Diseases Of Kidney and Ureter- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Congenital anamolies and injuries	4
	b) Polycystic Kidney	2
	c) Perinephric abcess	2
	d) Calculus	4
	e) Neoplasms	4

Jan-25	Antibiotics, analgesics, anti- inflammatory and emergency drugs in surgical practice.	4
	Diagnostic techniques – X-ray, Imaging techniques, Ultrasonography, CAT, Scan, MRI, Biopsy / Cytological study.	4
	Shat Kriya Kala in Surgical practice.	2
	Twacha Vikara- Nidana, Samprapti, Lakshana and Chikitsa of: Chippa- Paronychia, Kadara- corn and Kshudra rogas.	2
	Manya Vikara- Nidana, Samprapti, Lakshana and Chikitsa of:	
	a) Galaganda- Goiter	2
	b) Gandamala, Apachi- Lymphadenitis	2
	Pashanagardhabha- Disease of parotid gland.	2

	Sira Vikara- Venous disorders- Diagnosis and their management	
	a) Superficial and Deep vein thrombosis	2
	b) Haemangioma	2
	Vericose veins	2

Feb-25	Dhamani vikara- Arterial disorders- Nidana, Smprapti,	
	Lakshana and chikitsa of	
	a) Aneurysm	2
	b) Buerger's disease	1
	c) Atherosclerosis	1
	Raynauld's disease	1
	Snayu Vikara- Disease Of tendons and ligaments- their Management	2
	Tennis elbow and ganglion	1
	Surgical Practice in AIDS - HIV and Hepatitis Patients Care of AIDS – HIV and Hepatitis Patients	2
	Diseases Of Urinary Bladder- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Congenital anamolies and injuries	4
	b) Ashmari- Vesical calculus	2
	c) Cystitis	1
	d) Neoplasms	2

Mar-25	Mutraghata and Mutrakriccha- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	1
	Retention of urine.	1
	Disease Of Prostate- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Prostitis	1
	b) Prostatic abscess	1
	c) Bening enlargement of prostate (BPH)	2
	d) Ca Prostate	2
	Disease Of Urethra- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Urethritis	1
	b) Stricture and Rupture	1

	Disease Of Penis- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Congenital anamolies	2
	b) Niruddhaprakash- Phimosis	1
	c) Parivartika- Paraphimosis	1
	d) Avapatika- Prepuceal ulcer	1
	e) Arbuda- Tumours	2
	f) Lingarsha- Penile warts	1

Apr-25	Disease of Scrotum and Testies- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Epididymo-orchitis, Epididymal cyst	2
	b) Scrotal filariasis	1
	c) Shukrashmari- Seminal calculus	2
	d) Torsion Of testis	1
	e) Ectopic testis and Undescended testis	1
	f) Tumours	2
	Vriddhi Roga- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of: Mutravriddhi- Hydrocele	1
	Antra vriddhi- Ateopathogenesis, Classification, clinical features, Diagnosis, Complications and Management Of:	
	a) Inguinal	3

May-24	b) Femoral	2
	c) Epigastric	1
	d) Umbelical	2
	e) Incisional	2
	f) Rare forms of Hernia	2
